

Aboveground Water Storage Tanks

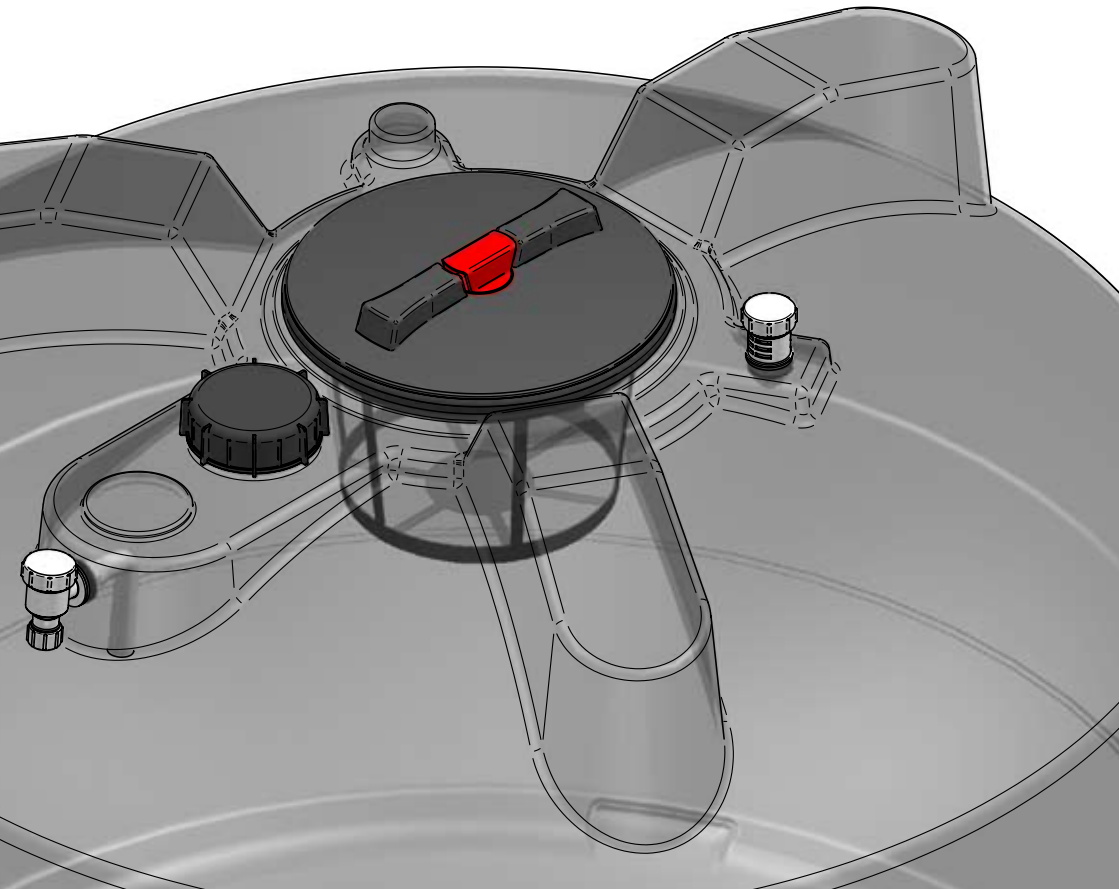

Welcome to Harlequin

from Clarehill Plastics Limited

Established in 1981, Clarehill Plastics Limited is today firmly established as a leading European manufacturer of environmentally preferred liquid storage and containment solutions, under the Harlequin Brand.

Manufactured in one of Europe's most advanced rotational moulding facilities, the Harlequin range of Potable and Non Potable Water Tanks offers a comprehensive range of aboveground water storage solutions. From the super-slimline 920SL and 1100SL, through to the supersized 10000VT - all Harlequin tanks benefit from almost three decades experience in the design, development and manufacture of premium quality, storage tank solutions.

For more information and to see the complete range online, visit Harlequin Online at www.harlequintanks.com

CAPACITY: 955 litres
OUTLET: 1" BSP Male

NP1100SL SLIMLINE

LENGTH: 1,650 mm
WIDTH: 690 mm
HEIGHT: 1,420 mm
WEIGHT: 60 kg
CAPACITY: 1,095 litres
OUTLET: 1" BSP Male

NP1450VT VERTICAL

DIAMETER: 1,350 mm
HEIGHT: 1,260 mm
WEIGHT: 45 kg
CAPACITY: 1,480 litres
OUTLET: 1" BSP Male

NP2500VT VERTICAL

DIAMETER: 1,700 mm
HEIGHT: 1,370 mm
WEIGHT: 65 kg
CAPACITY: 2,579 litres
OUTLET: 1" BSP Male

NP3900VT VERTICAL

DIAMETER: 2,020 mm
HEIGHT: 1,420 mm
WEIGHT: 120 kg
CAPACITY: 3,929 litres
OUTLET: 2" BSP Male

NP5400VT VERTICAL

DIAMETER: 2,020 mm
HEIGHT: 1,920 mm
WEIGHT: 150 kg
CAPACITY: 5,307 litres
OUTLET: 2" BSP Male

Harlequin Non Potable Water Storage Tanks

Aboveground water storage solutions for home, farm and industry.

NP10000VT VERTICAL

DIAMETER:	2,260 mm
HEIGHT:	3,200 mm

CAPACITY:	10,100 litres
OUTLET:	2" BSP Male

Harlequin Potable Water Storage Tanks

Designed for the aboveground storage of drinking water and approved in the UK by the Water Regulations Advisory Scheme.

PW2500VT VERTICAL

DIAMETER:	1,700 mm
HEIGHT:	1,370 mm
WEIGHT:	65 kg
CAPACITY:	2,579 litres
OUTLET:	1" BSP Male

PW3900VT VERTICAL

DIAMETER:	2,020 mm
HEIGHT:	1,420 mm
WEIGHT:	120 kg
CAPACITY:	3,929 litres
OUTLET:	2" BSP Male

PW5400VT VERTICAL

DIAMETER:	2,020 mm
HEIGHT:	1,920 mm
WEIGHT:	150 kg
CAPACITY:	5,307 litres
OUTLET:	2" BSP Male

Harlequin Potable Water Storage Tanks

Designed for the aboveground storage of drinking water and approved in the UK by the Water Regulations Advisory Scheme.

PW920SL SLIMLINE

LENGTH:	1,530 mm
WIDTH:	715 mm
HEIGHT:	1,165 mm
WEIGHT:	55 kg
CAPACITY:	955 litres
OUTLET:	1" BSP Male

PW1100SL SLIMLINE

LENGTH:	1,650 mm
WIDTH:	690 mm
HEIGHT:	1,420 mm
WEIGHT:	60 kg
CAPACITY:	1,095 litres
OUTLET:	1" BSP Male

PW1450VT VERTICAL

DIAMETER:	1,350 mm
HEIGHT:	1,260 mm
WEIGHT:	45 kg
CAPACITY:	1,480 litres
OUTLET:	1" BSP Male

PW10000VT VERTICAL

DIAMETER:	2,260 mm
HEIGHT:	3,200 mm
WEIGHT:	250 kg
CAPACITY:	10,100 litres
OUTLET:	2" BSP Male

Why choose a Harlequin Water Storage Tank?

Every Harlequin Water Storage Tank is manufactured in an ISO9001: 2000, ISO14001 and OHSAS18001 accredited production environment and benefits from almost 3 decades experience in the design, development and manufacture of rotationally moulded storage containers.

- Manufactured from Medium Density Polyethylene, Harlequin Water Storage Tanks will not rust or rot and do not require painting.
- Harlequin Water Storage Tanks are manufactured from UV stabilised polymer – to protect against the potentially damaging effects of sunlight.
- Harlequin Potable Water Tanks are approved in the United Kingdom by WRAS – the Water Regulations Advisory Scheme.
- All Harlequin Water Tanks can be installed on a base of adequate size and strength at ground level and do not need to be placed on a raised base.
- Supplied complete with Factory Fitted Outlet, Inspection Aperture and Screened Vent. Additionally, all Water Tanks with a capacity of 1095 litres and greater incorporate manhole access with removable basket for ease of inspection and cleaning.
- Designed solely for aboveground installation, Harlequin Water Storage Tanks cost less to purchase and to install than underground alternatives.
- All Harlequin Water Storage Tanks are manufactured only from fully recyclable materials.
- Choose from two Slimline models... ideal for domestic installations, where space is often at a premium. At less than 700mm wide, the NP1100SL and PW1100SL are narrow enough to pass through a standard domestic doorway!

Expect more with Harlequin Potable Water Storage Tanks!

For ease of installation and to assist with the achievement of regulatory compliance, every Harlequin Potable Water Storage Tank is uniquely supplied complete with WRAS Approved Isolation Valve and Byelaw 30 Fitting Kit.

As you'd expect from Harlequin, the isolation valve is certified by the Water Regulations Advisory Scheme (WRAS) as being suitable for use with Potable Water i.e. water intended for human consumption.

The result is a regulatory compliant product that is both easy to use and easier to install.

Harlequin... a bigger range. A better choice.

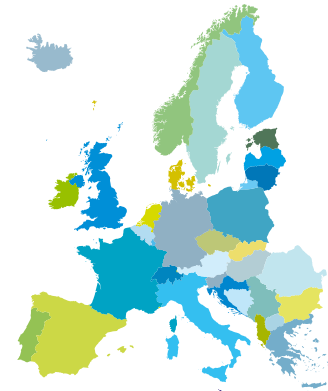

As well as Potable and Non Potable Water Storage Tanks, Harlequin also manufactures a great range of general purpose storage tanks and containers, suitable for the safe, secure and environmentally responsible storage of:

Admixtures • Agricultural Fuel Oil • BioDiesel • Diesel • Gas • Oil Heating Oil • Lubricants • Road Salt and Grit • Solid Fuel
